SUMMARY

Flutter development serves as my expertise for over 4 years. I have proven experience in the mobile app development industry backed with published apps both in the App Store and Play Store. I enjoy working in a team setting but able to work with minimal supervision. Know how in implementing REST API's and have a strong knowledge for app functionalities and UI/UX. Currently learning native KOTLIN and SWIFT.

WORK EXPERIENCE:

CAPTURIT

ANDROID/IOS | SOLE DEVELOPER

2024 - 2025

Create and attend up and coming events, and keep all the events details in the one album.

- Solely developing the MVP on my free time for almost a year now and its about to launch on both IOS and Android platforms soon.

MHT APP & MALADY APP

ANDROID/IOS | PART OF A TEAM

2024 - 2025

To extract blood use the mobile app to book with phlebotomist to come house doors without going to any center.

- Joined in a team and was assigned in the middle of the development doing the maintaining and adding new features to be added. I was glad to join the team because I liked the concept and believe their service could actually make a difference and has a potential for success in the future.

NRD RIDEAPP & NRDEV BSS APP

ANDROID/IOS | PART OF A TEAM

2024 - 2025

Empower your ride with the EV Motorcycle Companion App! Manage your electric motorcycle effortlessly: add and track your bike, buy credits for easy riding, and swap batteries at our battery swapping stations (BSS) with a few taps. Find the nearest BSS locations, get real-time alerts on your bike's status, and access customer support anytime. Stay connected and ride smarter with our intuitive app.

- I'm one of the developers whom created this for both apps, I enjoyed making the app since it's using E-BIKES which really innovative and smart idea.

CLINIC FLOWS

ANDROID/IOS | SOLE DEVELOPER

2021 - 2024

Cliniq Flows app mobile as to grow you practice, reduce your workload and build deeper relationship with your patients.

- This app serves as my pride and joy as I took on the responsibility of developing such a large app on my own.

THESIS PROJECTS

ANDROID/IOS/WINDOWS/WEB | SOLE DEVELOPER

2022 - THIS YEAR

I'm accepting thesis projects from college students from various colleges locally in our city.

- This serves as a way for me to sharpen and enhance my developing skills by trying various app concepts. I enjoy seeing the students ideas come to life with the apps. This is my way of paying it forward based on my own experience as a student, with the hope that those I assist will eventually help others as well.
-
